

# Road Upgrades

## Main Street and Sapphire Coast Drive

**5 October 2021**

Council wishes to advise of upcoming scheduled stabilisation works on Main Street and Sapphire Coast Drive in Merimbula.

These important upgrades will improve driveability, reduce ongoing maintenance requirements and extend the life of the road assets.

Works will commence on Main Street from Tuesday 19 October and run through to Saturday 30 October (weather permitting).

Traffic flow will be affected and traffic passing through the site will be kept to a minimum, with a detour via the roundabout on Merimbula Drive to be implemented. The back entry into Woolworths and Club Sapphire will not be affected.

Once the above project is complete, works will occur on the section of Sapphire Coast Drive between Merimbula Drive and Kalinda Street and run for approximately two weeks (weather permitting).

Traffic control will be in place for the duration and Council apologises for any inconvenience these projects may cause.

**For further information please contact Council's Contractors Supervisor, Craig Corby, on (02) 6499 2222.**
